Congratulations on your purchase of the Hydra-Pack!

**Curb Roller Manufacturing proudly manufactures the Hydra-Pack HP1300 in the USA.**

**Before using the Hydra-Pack HP1300 you must read and follow this instruction manual for proper use and set up.**

The Hydra-Pack HP1300 has been designed and manufactured to provide many years of service.

**NOTICE**

Carefully examine your equipment upon receipt. Report any damage immediately to the freight carrier and register any claim. If any material or manufacturing defects be discovered, contact a Curb Roller Manufacturing representative.

**NOTICE**

Information provided in this manual was current as of the issue date. Curb Roller Manufacturing reserves the right to make design changes without notice or liability.

Information furnished in this manual does not include all of the details of design, production, or variations of the equipment. It does not cover all of the possible contingencies which may emerge during operation. If special problems arise or further information be desired, please contact Curb Roller Manufacturing.

**⚠ WARNING**

Equipment modifications from original design and specifications are strictly prohibited. Modifications may compromise safe operation, subjecting users to serious injury or death. Modifications not authorized by a Curb Roller Manufacturing representative may void any remaining warranty.

**NOTICE**

Curb Roller Manufacturing reserves the right to change, improve, modify, or expand features of this equipment at any time. Specifications, models, or equipment are subject to change without notice and without incurring any obligations to change, improve, or expand features of previously delivered equipment. Because of the variations in optional equipment and continued design improvement, certain information contained within this manual may not apply.

The owner/operator of this equipment must observe all safety codes or operating limitations listed herein, as well as any applicable federal, state, provincial, or local regulations.

## Safety

Before assembling and operating this equipment you must read, understand, and follow the instructions and safety warnings in this manual. Your Hydra-Pack may not be equipped with some of the optional equipment shown in the illustrations in this manual.

If you have any safety concerns or questions that are not covered by this manual, please contact a Curb Roller Manufacturing representative at 785-467-3132.

## Hazards

### WARNING

Do not operate, work on or around this machine while under the influence of alcohol, drugs, or if feeling ill.

### WARNING

Entanglement hazard. Keep away from moving parts. Do not wear loose fitting clothing. Loose fitting clothing and long hair can become entangled in moving or rotating parts. Long hair must be tied back or netted.

### WARNING

Never operate machine with open or missing guards or shields.

### WARNING

Observe all federal, state, provincial, and local safety codes and regulations that apply to the job site.

### WARNING

Pressurized fluids can penetrate the skin. Hydraulic hoses can fail from age, damage, or exposure. Do not search for hydraulic leaks without body and face protection. A tiny, almost invisible leak can penetrate the skin thereby requiring immediate medical attention.

Use wood or cardboard to detect hydraulic leaks. Never use your hands.

### WARNING

The engine exhaust from this product contains chemicals known to the state of California to cause cancer, birth defects, or other reproductive harm.

### WARNING

Engine exhaust contains poisonous carbon monoxide. Do not operate the Hydra-Pack in an enclosed or confined area.

Avoid areas and actions that expose you and others to carbon monoxide.

## Equipment Identification

- A. Hydraulic Oil Reservoir
- B. Directional Valve
- C. Engine Fuel Tank
- D. Engine Air Filter
- E. Cart
- F. Hydraulic Oil Filter
- G. Hydraulic Oil Suction Strainer
- H. Female Hydraulic Coupler
- I. Male Hydraulic Coupler

## Operation

### **⚠ WARNING**

Prevent injury. Verify directional valve is in neutral position before connecting hydraulics.

1. Read and understand the engine manufacturers' operators manual before using the Hydra-Pack.
2. Check hydraulic oil level in reservoir. Add hydraulic oil if necessary.
3. Verify directional valve (B) is in center neutral position.
4. Connect hydraulic hoses to the hydraulic couplers (H & I).

5. Start and operate engine per guidelines in engine operator's manual.

6. Set engine throttle to max position.
7. Move directional valve (B) down to send pressure oil through female coupler (H). Move directional valve up to send pressure oil through male coupler (I).

8. Move directional valve (B) to center neutral position to stop pressurized oil flow.

## Maintenance

### NOTICE

Change hydraulic oil filter every 300 hours.

1. Stop engine.

2. Place a drain pan under filter.

3. Remove and replace filter.

4. Refill hydraulic oil reservoir to proper level.

5. Dispose of oil in an environmentally safe manner.

### NOTICE

Change hydraulic oil every 600 hours/annually.

1. Stop engine.

2. Place a drain pan under suction strainer.

3. Remove hose (J) to drain oil.

4. Remove, inspect, and clean suction strainer (K). Replace suction strainer if damaged.

5. Install suction strainer (K) and connect hose (J).

6. Refill hydraulic oil reservoir to proper level.

7. Dispose of oil in an environmentally safe manner.
