

BATT SCREED GEN II

The Next Step in Battery-Powered Screeding

BUILT TO KEEP CREWS MOVING

The original battery-powered roller screed just got even better. The Batt Screed Gen II delivers the same portability crews rely on, now with stronger durability and expanded configuration options.

WHAT STAYS THE SAME

The core features contractors depend on haven't changed:

- Powered by DeWalt® FLEXVOLT®
- Compatible with 9Ah and 12Ah FLEXVOLT® batteries
- Foldable design for quick transport and storage
- 1-Year Manufacturer Warranty
- Lynx Screed System compatible
- Uses the same 4" SCH40 6160 aluminum pipe

WHAT'S NEW

Built for longer life and greater flexibility:

- Reinforced drive mechanism
- Higher RPM Range (low speed now runs at 400 RPM – about 100 RPM faster)
- Modular configuration capabilities - Expanded setup options for different jobsite conditions.
- Now compatible with 15Ah FLEXVOLT® batteries
